SERVICE / 01

Company Formation

We provide end-to-end legal setup and practical advisory for local and foreign investors, from selecting the right legal structure to completing licences and registrations. Every step is tailored to the venture's structure, ambitions and plans for entering the Saudi market. Our goal is to launch your business on a sound legal foundation, in the shortest possible time.

SERVICE / 02

Employee Affairs Management

We manage the full employee lifecycle, from hiring and contracts to records, leave and end of service. We ensure your organization stays compliant with the Saudi Labor Law and applicable regulations at every stage. This frees your team to focus on growing the business rather than on administration.

SERVICE / 03

Recruitment and Talent Acquisition

We find and attract exceptional talent aligned with each client's culture, capabilities and long-term business goals. We support the entire process, from defining the need, screening and assessment through to hiring and onboarding. We also help retain talent, so you can build stable, high-performing teams.

THE RIGHT PEOPLE / THE RIGHT FOUNDATION

SERVICE / 04

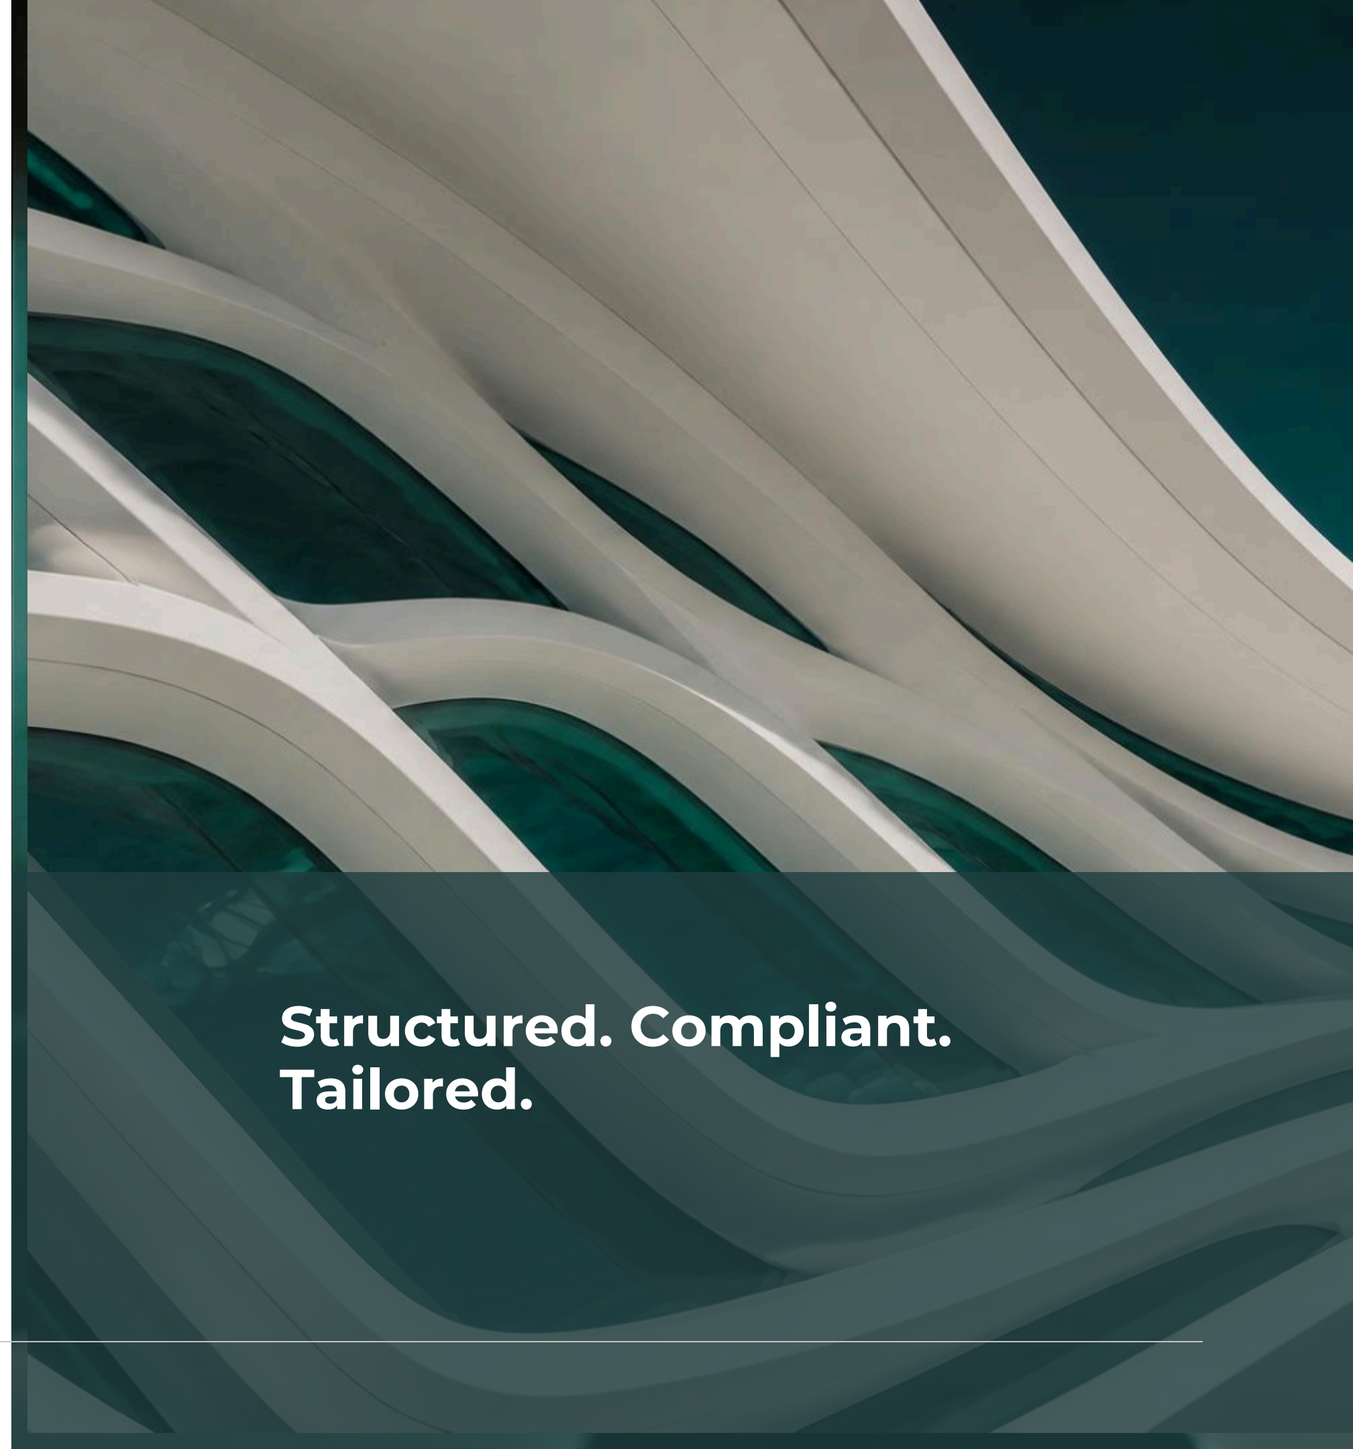
Payroll, Benefits and Financial Affairs

We manage payroll, benefits and employee financial entitlements with accuracy, on time and in line with regulations. We provide workforce financial planning and tailored advisory that give you a clear view of your costs and obligations. The result is clarity, control and confidence in all your workforce commitments.

STRUCTURED / COMPLIANT / TAILORED

Government Relations & Platform Management

We manage your accounts on government platforms and complete your transactions on your behalf, with expertise and precision. We track requirements, renewals and procedures so your organization remains compliant without delay. You gain reliable day-to-day administration and more efficient workflows.



SERVICE / 06

HR Systems & Data Management

We help you select, implement and configure the HR systems that fit your organization's needs. We structure employee data and turn it into reports and performance indicators that support your decisions. This improves operational efficiency and grounds your decisions in accurate information.
